

TECHNOLOGY FOR A SUSTAINABLE TOMORROW

REFERENCE PLASTICS

UNITED PLASTICS RECYCLING

Vecoplan®

VECOPLAN TECHNOLOGY UNITED PLASTICS RECYCLING

COMMISSIONING

June 2003

THROUGHTPUT CAPACITY

Misc. plastics recycling

PROCESS DESCRIPTION

Mechanical feedstock processing system designed for size reduction and material reclamation miscellaneous plastics

MECHANICAL PROCESS STEPS

- Receiving
- Shredding
- Discharge

Rev 9-A HMI Control Panel

VECOPLAN SCOPE

Scope of supply:

- Vecoplan R662/150K Shredders
- HMI touch-screen control panel
- Granulator infeed conveyor
- Shredder infeed conveyor
- Discharge conveyor
- Metal detection

PLANT LOCATION

OPERATOR AND OWNER

United Plastics Recycling
John Sullivan
4230 Mobile Highway
Montgomery AL 36108
